November Camp 2014

Sponsor guide 2014

November 14th @ Scandic Grand Central, Stockholm

What is Symfony Sverige?

We are a non profit organisation that brings together PHP developers in Sweden. We are working to spread the knowledge of the Symfony framework and ecosystem.

We host appreciated meet-ups regularly where we talk about "tech stuff that could be applied to a Symfony project".

About the conference

In 2013 we started a tradition with an annual full-day conference. We want to give the visitors a day filled with interesting speakers with hot topics.

Last years hot topics was how to integrate Drupal 8 into Symfony2 and how to effectively use continuous integration.

This year's conference will be targeting all of Scandinavia. The venue will be in the heart of Stockholm, at the luxurious Scandic Grand Central.
